SUBJECT: My green class room activity-Regarding

Dear Parents,
Namaste!

We are excited to inform you about an upcoming activity on Saturday, July 6 ,2024 – “**MY GREEN CLASS ROOM ACTIVITY**”. This activity is aimed at promoting sustainability and environmental consciousness within our students. During the activity every student will plant an indoor plant and will take care of his/her plant buddy throughout the year.

My green classroom activity will develop a sense of protecting our environment and adopting eco-friendly habits. It will also develop a sense of ownership of the plant and teach respecting a life. Students will be giving a nick name to their plant buddy and observe its growth and well being on daily basis. Towards the end of the year students will gift their plant buddy to any of the classmate or to their educator and will enjoy the joy of sharing. Students will create a green and air purified classroom for themselves.

Please note, an amount of Rs. 90/- (Ninety) will be deducted from imprest money account against indoor plant, a pot and coco pit.

Looking forward for your support and cooperation.

Best Regards

Neha Shina
